# ICF Presentation & Open House

**Friday, November 01, 2019**  
**10:00 AM - 2:00 PM CST**

**12356 Ballpark Way**  
**Papillion, NE**

Register online at <http://bit.ly/2oRYaHR>

## EVENT DESCRIPTION

ICF's are an excellent material for school construction due to their high energy efficiency, speed of construction, sustainability and strength. High energy efficiency construction lowers annual utility costs that can save school districts millions of dollars throughout the life of the structure. This savings allows school districts more flexibility in their budgets and gives them the ability to invest their money where they need it the most. Learn more about how the benefits of Insulated Concrete Forms (ICF) can lower a school's annual utility costs and decrease construction times at this FREE Presentation and Tour of the new, under construction, Ashbury Hills Elementary School in Papillion, NE.

## SCHEDULE

- 9:30 am** Registration
- 10:00 am** ICF Presentation at Werner Park (12356 Ballpark Way, Papillion, NE) by Greg Lewis, NRMCA and Randy Daniels, Fox Blocks (PDH's will be available)
- 11:45 am** Lunch will be provided
- 12:15 pm** Bus tour at Ashbury Hills Elementary School (120th & Schram, Papillion, NE) given by Eli Miller, KB Walker
- 2:00 pm** Bus will drop off at Werner Park

## WHO SHOULD ATTEND

Presentations will be focused for the architects, designers, contractors, and school officials. However, everyone can benefit from learning more about energy efficient schools. (PDH's will be available.)

## REGISTRATION FEE

**Free.** Lunch is included. This event is jointly sponsored by the Nebraska Concrete and Aggregates Association and Iowa Ready Mixed Concrete Association.

## TIME

Sign in will begin at 9:30 a.m. Presentations will begin at 10:00 a.m. and buses will return from school building open house at 2:00 p.m.

## REGISTRATION DEADLINE

Please register by October 25th.
